▶ APPLY NOW

for a **Research Internship** in Materials Science at the **University of California, Santa Barbara**, from June to August 2021 (9 weeks).

2 scholarships will be awarded as part of the exchange program ICMR Undergraduate Research Internship Program between the UCSB, Saarland University and INM.

The scholarships are aimed at **advanced material-oriented students** studying Materials Science, Chemistry, Physics or similar at Saarland University. The scholarship holders will work on a current materials research topic at the **Materials Research Laboratory (MRL)** of UCSB, one of the most renowned materials centers in the US. The scholarship includes sufficient travel and accommodation expenses.

Please send your electronic application in English (cover letter; curriculum vitae; transcripts of records or grades; contact address of a possible reviewer from the ranks of university teachers; presentation of research interests, approx. 1 page) via e-mail by **February 5, 2021**, to: christina.sauer@leibniz-inm.de.

For any further question or information, please contact us by e-mail.

Please note: The exchange is contingent on the development of the Covid 19 situation.
